

# Terra Terra

DEPTH, DETAIL and EMOTION

Pure high tech:  
The build-in amplifier  
with velocity feedback  
and loudspeaker/room  
matching electronics

Easy to control:  
The amplifier board  
with connection and  
set-up interfaces

Power under control:  
Two 10" long-throw  
woofers with extremely  
stiff paper cones

# Terra

DEPTH, DETAIL and EMOTION

The Terra subwoofer was developed for the demanding task of reproducing extremely low frequency sound even in acoustically difficult rooms. A full volume, lower corner frequency of 10 Hz can be

easily achieved in rooms up to 60m<sup>2</sup>/600ft<sup>2</sup>. Due to having an extremely wide bandwidth the Terra subwoofer exhibits a freedom from the characteristic boominess normally associated with other subwoofers.

The woofer's impulse response is controlled by velocity-feedback.

Virtually resonance free cabinet due to patented three-layer construction additionally supported by a diffuser board in order to suppress standing waves.

For the first time, adjustability to room-size and wall-stiffness ensures repeatable quality even in „very dry“ or „very boomy“ sounding rooms.

A detailed and comprehensive instruction manual ensures successful setup in demanding systems - even for the amateur.

To save space the woofer can be placed either against a wall or in a corner.

*Technical data:*  
Height: 730 mm / 29"  
Square measure:  
470 mm x 470 mm  
(18,5" x 18,5")  
Weight: 40 kg / 88 lb  
Impedance: 600 Ω  
Power: 300 watt  
Max. sound pressure:  
98 dB / 10 Hz,  
more than 110 dB from 30 Hz  
up, in rooms with  
30 m<sup>2</sup> / 300 ft<sup>2</sup> area and  
2,5 m / 8 ft height  
Frequency range:  
10 Hz - 80 Hz (-3dB)  
restrictable to 35 Hz, 46 Hz  
or 61 Hz.

The built-in 300 watt power amplifier is a high end product in its own right and possesses sufficient reserves for high sound pressure levels.

Connection of the Terra is easy. It is simply connected to the output terminals of the main amplifier like a normal passive loudspeaker.

Veneer:  
Cherry, white or black ash;  
with other veneers on order.
